

SANDIIP KAKADDE

Information Developer | Technical Writing • DITA • API Docs

Pune, Maharashtra | +91 95610 51267 | sandiip.kakadde@gmail.com | linkedin.com/in/sandiipkakadde-92428b11/

PROFESSIONAL SUMMARY

I am an influential and collaborative technical writer with 11+ years of experience delivering user-focused documentation, AI-assisted content solutions, and structured technical documentation for global organizations across PMO, Oil&Gas, SaaS, and enterprise technology domains.

I'm skilled in creating technically accurate, scalable, and user-focused documentation within DITA framework combined with AI-powered writing tools including ChatGPT, Claude Cowork, Gemini, and Rovo.

I have a strong experience in collaborating with global Product Managers, UX, QA, and engineering teams within Agile environment to produce documentation that improves product adoption and customer success.

TECHNICAL SKILLS

Authoring Tools: Oxygen XML, Arbortext Editor, IXIASOFT CMS, MS Office Suite, Windchill

Languages & Styles Guides: XML, HTML/CSS, JSON, Markdown, YAML, MSTP, Google developer documentation style guide, STE

Testing & Tracking: Jira, Confluence, Postman, Swagger, Git, GitHub, SharePoint

Visuals & Media: MS Paint, Snagit, Adobe Illustrator, Camtasia

Frameworks: DITA, DDLC, SDLC, OpenAPI Specification (OAS)

Other: API documentation, context-sensitive help, CMS administration, agile/scrum

PROFESSIONAL EXPERIENCE

Sr. Technical Communications Lead

Sep 2023 – Aug 2026

Persistent Systems Ltd. Erandwane, Pune, India

Domain: Sales Enablement

- Author enterprise product documentation for new product features in IXIASOFT CCMS using topic-based authoring methodology.
- Collaborate with product managers, engineers, and technical experts across global locations to gather requirements and align on scope to align documentation deliverables with release cycles.
- Conduct content audits to identify coverage gaps, validate accuracy, and improve support workflows; reduce redundancy through single-source reuse strategies in DITA.
- Provide weekly status updates to stakeholders and participate in cross-functional planning and review meetings.
- Build structured prompt frameworks to accelerate technical content generation while maintaining quality, consistency, and editorial standards.
- Review AI-generated documentation for technical accuracy, tone, voice alignment, and compliance with organizational guidelines.

Recognition: H1 FY25 STAR Award (client) | Bravo Award Q2 FY25 (client)

Staff Information Developer

Jul 2018 – Aug 2023

SLB (formerly Schlumberger) Yerwada, Pune, India

Domain: Oil & Gas

- Authored and maintained SOPs including assembly/disassembly manuals, operating manuals, and tool service manuals to ISO and proprietary safety standards.
- Rewrote maintenance and safety manuals in collaboration with Sustaining engineers, applying Simplified Technical English (STE) and plain language principles throughout.
- Coordinated directly with field technicians and SMEs to gather tool specifications and kick off documentation projects.
- Trained the full TechCom department on STE, plain English writing, and DITA fundamentals; onboarded new joiners to documentation workflows and authoring tools.
- Managed content publication and version control using Arbortext Editor and Windchill.

Project Admin / Technical Writer

Apr 2014 – Jun 2018

Emerson Export Engineering Center Wakadewadi, Pune, India

Domain: Project Management (IT, Oil & Gas, Pharma)

- Authored end-user guides, installation guides, administrator guides, and release notes for an Electronic Document Management System (EDMS) following MSTP and proprietary standards.
- Maintained SharePoint repositories for global Oil & Gas projects: curated engineering content, governed document libraries, and supported document controllers across geographies.
- Planned and tracked documentation deliverables in an agile environment, coordinating across project managers and engineering leads.
- Created documentation templates to enforce consistent visual and structural standards across teams and projects.

EDUCATION

Diploma in Technical Communication

2013 – 2014

Technowrites, Pune

Six-month program covering documentation standards across IT and healthcare domains, completed alongside a live internship.

Bachelor of Commerce (Business Administration)

2004 – 2006

University of Pune

CERTIFICATIONS & TRAINING

- Simplified Technical English (STE) — practitioner
- DITA XML authoring — practical certification via Technowrites
- Google Prompt Engineering Certificate — Coursera

HONORS & AWARDS

- H1 FY25 STAR Award — received from client alongside the Engineering team, Seismic project
- Bravo Award Q2 FY25 — Persistent Systems Ltd., Seismic project

LANGUAGES

- English — Proficient
- Hindi — Advanced
- Marathi — Intermediate
